Sustainability

Sustainability: What's in a name...

Sustainable practices need to meet the needs of the present without compromising the ability of future generations to meet their needs.

Sustainability in agricultural practices

Prognosfruit

8-10 August 2018, Warsaw, Poland

Cross-policy links

EU Circular Economy Package

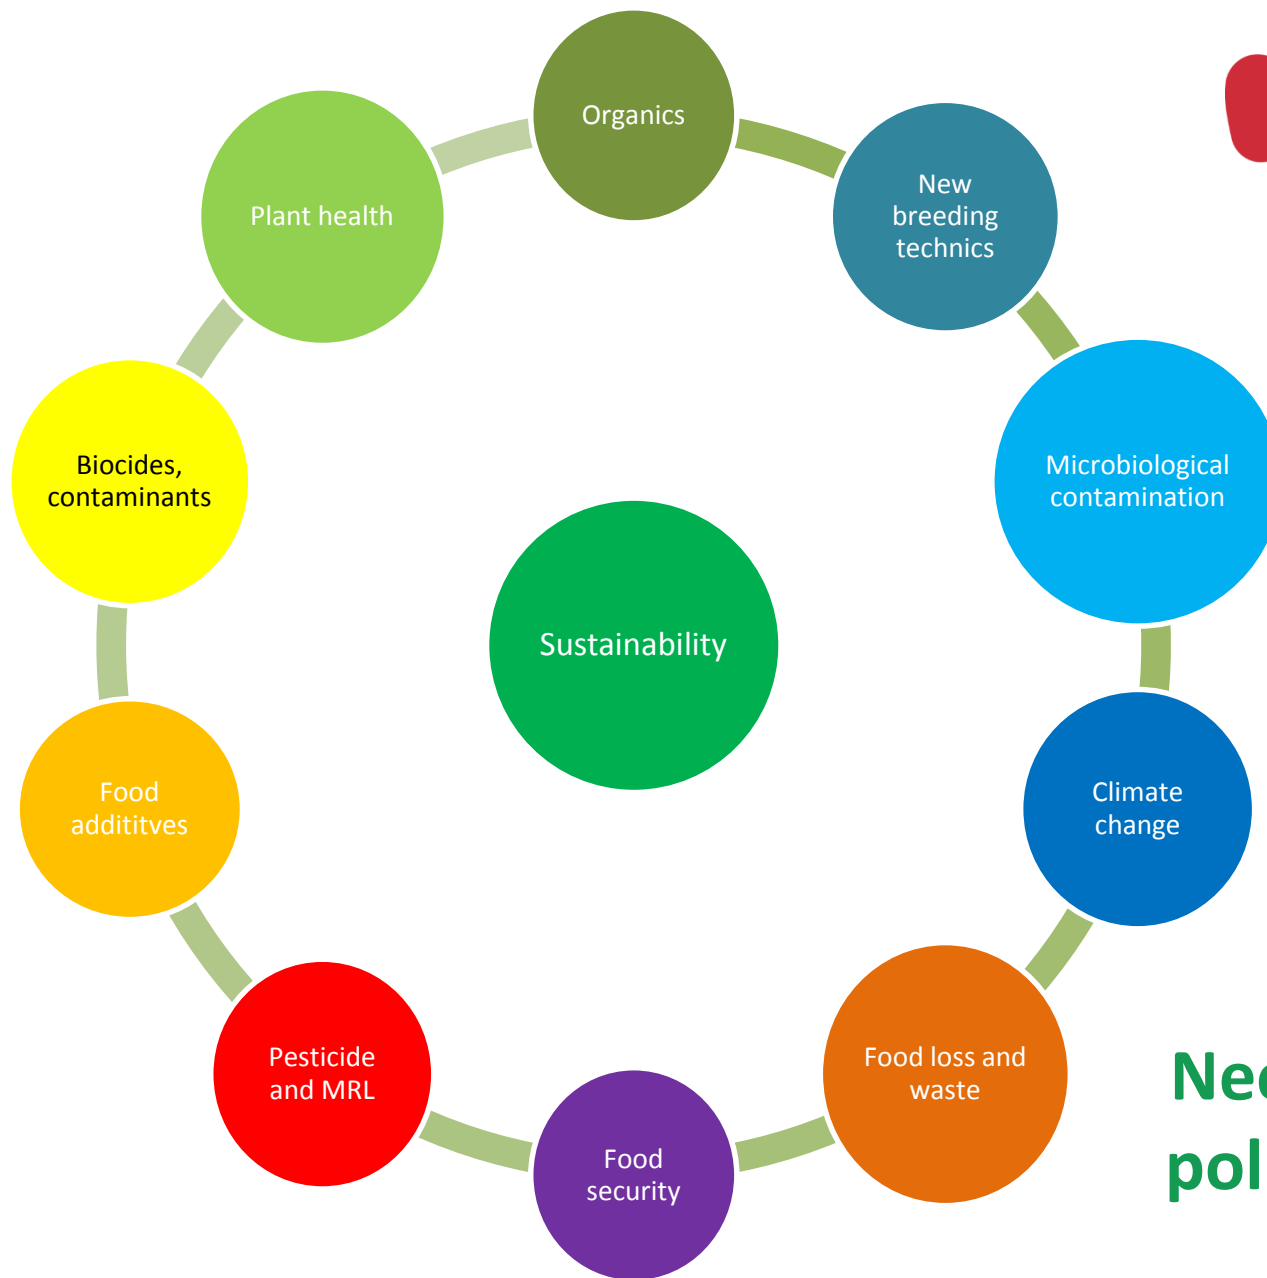

Proposals

- Clarification on food waste (methodology)
- Guidance on food donation;
- Date marketing
- [Platform on Food Waste](#)

Challenges

- Involve all actors from farm to fork
- Be added value to MS action
- Foster best practices

**Need for greater
policy coherence**

Certification: coherence?

The role of R&I

“The needs and contributions of rural areas should be clearly reflected on the research agenda of the European Union and the future CAP will need to enhance even **more synergies with the Research and Innovation Policy** in fostering innovation.” Future of Food and Farming

WORKSHOP INNOVATION IN THE SUPPLY CHAIN
CREATING VALUE TOGETHER
6-7 FEBRUARY 2017 - LYON, FRANCE

Innovation in the supply chain: Creating value together

Tuesday 6 February – Wednesday 7 February 2018
Lyon, France

“We all concur on [the need to] avoid cuts to Erasmus+ and Horizon 2020. And we may even increase spending for research.”
EU Budget Commissioner Oettinger

EU R&I in sustainable fruit production

- Example: EUFRUIT:
 - 4 themes of sustainable fruit production:
 - New varieties
 - Reduction of pesticides
 - Improvement of fruit handling/storage
 - Sustainable production/Organic
 - All outcomes and research on a publicly available Knowledge Platform: <http://kp.eufrin.org/>
 - Final conference at InterPoma, Bolzano
